# Loan Manager System

Financial Loan and Deposit Software for Business

Used Worldwide

© Genawise Pty Ltd 2000 - 2010  
ABN: 69 082 118 296

The [Genawise LMS](#) (Loan Manager System) has grown into a secure and stable software package for those businesses (and other institutions) where there is a need to manage the gathering of funds (deposits) and the lending of funds (loans) to clients/customers/staff.

It is a Microsoft Windows™ based software system that utilises the Microsoft SQL Database.

The system is in use in most Australian states and several other worldwide locations. Many varied and highly tailored versions are in use today. We offer a standardised system of LMS, filling most user's needs.

Current customers range from small private businesses, large corporations, multi-national corporations and banks.

If you are looking for a [dependable solution](#) to manage [mission critical data](#) for your organisation, then look no further.

## Key Benefits of Genawise LMS

- User Definable "Account Types"
- Charge interest on Loans, Pay interest on Deposits
- User Definable "Transaction Codes"

- Flexible interest charging options (weekly, fortnightly, monthly)
- Comprehensive reporting options
- Attach notes to individual accounts
- Stores loan security details
- Highly customised arrears reporting
- Special reporting needs for securitised funding portfolios
- "Detective" searching tool

## System Requirements

For the SQL database server, a reliable Microsoft Windows based server running MS-Windows 2000 Pro, XP Pro, Vista Professional, Windows 7 Professional or any with MS-SQL 2000 or any flavour of Microsoft Server operating system.

Workstations should be running Microsoft Windows 2000, Windows Vista or Windows 7.

The system can be run on a stand alone PC, or a LAN (Local Area Network). It can also be run across a WAN (Wide Area Network).

## Pricing

The initial purchase covers the product supply and the first 12 month license. Thereafter, an annual license fee applies from the start of the second year.

Please see our website <http://www.genawise.com.au/> for current pricing.

## Customisation

We will sometimes be able to customise the Genawise LMS system if your business has special needs not already built into the product. Once any specifications are supplied to us, by the way of requirement outlines or loan contract forms, we will then be in a position to estimate any extra charges.

## Internet Usage

We are often asked, can this system work across the internet. The answer here is yes, in the following circumstances...

We presently have customers using the Genawise LMS system where the program and server are centrally based, and the users connect via Microsoft Remote Desktop Connection. Also, we have customers using the system with VPN (Virtual Private Network) software.
